```c
// IPC USING PIPES PROGRAM: //

#include<stdio.h>
int main()
{
int fd[2],child;
char a[7];
printf("\nEnter the string to enter into the pipes:\n");
scanf("%s",a);
pipe(fd);
child=fork();
if(!child)
{
close(fd[0]);
write(fd[1],a,7);
wait(20);
}
else
{
close(fd[1]);
read(fd[0],a,7);
printf("\nThe string received from the pipes is %s \n",a);
} return(0);
}
```
